

Reciprocal Learning

Sister School Project

Kingsville Public School

Bringing world culture to our school and classroom whether through the sister school project or the International Teacher Candidate exchange is important because of our globalized society. We want our children to have knowledge and experiences with other ways of living and learning so that they can respect and understand their own communities as well as those that may appear on surface as quite different. At KPS we look for experiences that will put into question what we think we already know so that we can emerge with deeper understanding of others and ourselves.

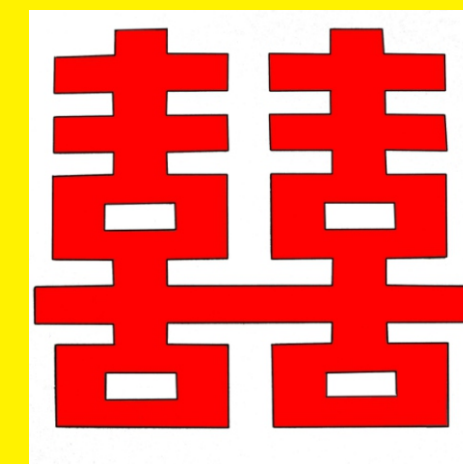

James Cowper
Principal, Greater Essex County District School Board

NDFX Visitors travel to Point Pelee for the day!

Three "Brother-School" Principals meet for the first time at NDFX in Beijing.

The most important character for our work: double happiness!

Principal Zhao meets our students for traditional Chinese breakfast items.

Our KPS Motto.

The 6 rules at KPS.
